Career Objective

As an aspiring Angular developer with more than a year of experience, I am dedicated to honing my skills and advancing my knowledge in this exciting and rapidly evolving field. I have a solid foundation in Angular framework and front-end development, and I am eager to continue learning and growing alongside a dynamic and collaborative team. My goal is to leverage my current experience to contribute to the success of innovative and forward thinking organizations, while also expanding my skill set to take on new challenges and opportunities.

Experience

1. **Wolken Software Pvt Ltd** - Aug, 2022 - Till now
   Associate UI Developer

   Here I worked on Task Management projects where I skillfully fixed bugs and introduced many features enhancements. For examples, worked on ,
   - RoleBased - Read and write access on ITSM Modules,
   - Introducing Email notification from SMS, slack and email to clients
   - Checkbox and related functionalities on various modules of the ITSM project.
   - Implemented server side pagination on role configuration tables ...etc

2. **Ninjacart Pvt Ltd, Bellandur, Bangalore** - May 2022 - July 2022
   Angular UI developer - Intern

   Ninjacart is an e-commerce-focused product based software company where I completed an internship, actively contributing to the enhancement of their proprietary web application by implementing diverse validation functionalities for form fields

3. **Self Employed, Salem, Tamil Nadu** - Sep 2021-May 2022
   Junior Web developer - Intern

   As the beginner in web development, I joined to assist a Web developer to enhance UI pages with my skills like **CSS3, Bootstrap 5, HTML5 and JavaScript** . I worked on few

webpages such as **Gym Websites , Yoga Websites, Fashion Website, Food Websites**
